

SERVAPIG GROWER

A TARGETED RANGE

Servapig grower is an economical weaning solution to face the challenges of sow's hyperprolificity. It secures the input for the piglets, in addition to the milk of the sow or as only feed. Its specific formulation allows a use during the whole weaning period or as a second phase from day 11, for a cost efficient weaning.

PRODUCTS BENEFITS

Thanks to a rigorous selection of raw materials, Servapig Grower meets the specific nutritional needs of suckling piglets. It is intended for technical farms and ensures both good digestion and strong piglets at weaning.

Olfastim is an original combination of plant extracts improving the palatability of our feed. It allows an easier suckling start and eases the ingestion.

The combination of fats (vegetable fats rich in short fatty acids) ensures a perfect digestibility and an energy intake highly available.

Prebiotics promote a better regulation of the intestinal flora by fighting the pathogenic bacteria.

A high content in dairy proteins which brings a perfect nutritional balance of the ration from the first meal.

The selenium is an essential trace element for the good growth of the young animals. Its natural form allows a better bioavailability natural (absorption and assimilation).

SERVAPIG GROWER

COMPOSITION

- Whey powder
- Refined vegetable fats (rapeseed, coconut, palm)
- Whey protein
- Wheat protein
- Whey low in sugar
- Calcium carbonate
- Monopotassium phosphate
- Yeasts products (MOS)
- Sodium bicarbonate
- Sodium chloride
- Sorbitol
- Magnesium oxide

ANALYTICAL CONSTITUENTS

Crude fats	14 %
Crude proteins	22 %
Crude ashes	8.5 %
Crude fibre	0 %
Calcium	1.2 %
Phosphorus	0.7 %
Sodium	0.7 %
Lysine	1.9 %
Methionine	0.6 %

MIXING INSTRUCTIONS

Dilute 200 g of powder in 1 litre of hot water.

Replacing mother's milk

Feeding plan for a weaning at 21 days

This plan can be extended to 28 days depending on the breeder's wishes.

Day	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21
Volume per day	300 mL					600 mL					1,6 L						1 L				

In addition to the mother's milk

Ad libitum feeding

- Clean and disinfect everyday the material in contact with the milk.
- Check the water quality frequently.
