

ONE SMALL CHANGE, ONE BIG IMPACT ON MORTALITY & LAMENESS

NOBACZ NAVEL - NAVEL CARE WITH PROVEN RESULTS

31% RELATIVE
REDUCTION
IN MORTALITY¹

50% REDUCTION
IN LAMENESS¹

A vet-led study of 2,186 piglets showed that a single application can **significantly reduce mortality and lameness in pre-and post-weaned pigs**, while helping cut antibiotic use in farrowing house and nurseries¹.
